## Sketching My World: The World Around Us

Encouraging everyone to look at themselves & their surroundings

All D2S Drawing Programs offer the chance to really look at the lines, shapes, patterns, forms, structures, spaces and surfaces of the world around us and gain greater experience & understanding of approaches to seeing, interpreting and representing the world in which we live.

Programs will move through a series of drawing activities that encourage students to look at themselves, their surroundings and the amazing living things that share our world, capturing it all through drawing.

Each session is dedicated to the exploration and experimentation of mediums & the application of various approaches & techniques in the composition of a drawing based on each Terms program theme.

**Each program may use various Drawing Materials & explore various Drawing Techniques, such as:**

- Graphite (Pencils, Sticks, Powder, Soluble)
- Fine Liner, Sharpie, Felt & Ink Pens
- Drawing Ink
- Charcoal & Conte (Pencils & Sticks)
- Soft & Hard Pastel (Chalk & Oil, Pencils & Sticks)
- Colour Pencil
- Watercolour Pencil
- Mixed Media Collage
